KEEP YOUR AGE TO YOURSELF

Don't let your skin give away your age! You may not be able to completely prevent the aging process, but you don't have to let it make you look and feel older than you really are. Renew was developed to help you sleep longer, look younger and feel better as you continue living your best life at every stage.

MAINTAIN A HEALTHY WEIGHT

Packing on extra pounds is never ideal. Renew allows you to take control of your health and manage your weight by helping HGH production that increases endurance and stamina, maximize fat burning potential and improve your recovery time.

REGAIN YOUTHFUL ENERGY

When you lack energy, you lose the motivation to move your body or partake in any physical activity. Rejuvenate and reenergize with a daily serving of Renew that's proven to support HGH production that helps improve mood, increase energy and even improve sexual libido and function.

REGENERATE AND RENEW

The Human Growth Hormone (HGH) is a naturally occurring hormone produced by a tiny gland situated beneath the base of the brain called the pituitary gland. This hormone is your key to aging well.

HGH flows through the bloodstream, interacting with cells throughout the body, telling them things like, "Produce more muscle fibers" or "Burn fat for energy."

In our 30s, HGH starts to decline and decreases 15% for every decade of life, causing various age-related changes.

As we age, we start noticing:

- Lower Energy Levels
- Weight Gain
- Dull Skin
- Thinning Hair
- Trouble Sleeping
- Frequent Aches + Pain

But you can control the way you age with Renew, a daily powder supplement that's scientifically formulated with the ideal combination of minerals, vitamins, amino acids, Tahitian Noni® and other botanical extracts to help to address the multiple pathways by which HGH declines as you age.

KEY INGREDIENTS

- L-Arginine, L-Citrulline, L-Lysine and Beta-Alanine
- Vitamin A, Vitamin B3, Vitamin B6 and Vitamin B12
- Magnesium, Zinc, Selenium and Chromium
- 7 Botanicals + Tahitian Noni
- GABA

OUR SCIENCE

What makes our HGH product different?

Signal Booster Blend

Morinda citrifolia L. (noni) fruit, Grape (*Vitis vinifera* L.) Seed Extract, Green Tea (*Camellia sinensis* L. Kuntze) Leaf Extract, Turmeric (*Curcuma longa* L.) Root Extract, Blueberry (*Vaccinium spp.*) Fruit Extract

Helps inhibit the enzyme (DPP4) which reduces your body's natural HGH production to help delay the aging process by increasing the production and release of HGH into the blood. Our in vitro laboratory studies have shown that the signal booster blend can inhibit the DPP4 enzyme by 99.9%.

Amino Booster Blend

L-Arginine, L-Citrulline, L-Lysine, Beta-Alanine and Natural Carotenoids

Scientifically tested to naturally boost your HGH production in the body.

Restorative Booster Blend

GABA (Gamma Aminobutyric Acid) - Vegetarian Sourced min 98% Lutein, Zeaxanthin Isomers

Supports quality sleep. Sleep is important for your body's natural HGH production

Vitamin + Mineral Co-factors

Vitamin A (as beta carotene), Vitamin B3, Vitamin B6, Vitamin B12, Magnesium, Zinc, Selenium, Chromium

Nutritional support for HGH production, cellular health and viability

BENEFITS

HGH has been shown to help:

- Improve Cell Regeneration
- Support Physical Resilience
- Boost Energy + Stamina
- Enhance Libido + Sexual Function
- Reduce Body Fat
- Increase Skin Elasticity
- Improve Mood

FREQUENTLY ASKED QUESTIONS

WHAT DOES RENEW DO?

WHY IS IT DIFFERENT THAN OTHER PRODUCTS?

Renew supports the production and release of HGH in the body by righting the scale, making it the first product in the market to address the multiple pathways by which HGH declines.

In other words, Renew helps trigger your body's natural regeneration process so you can take control of the aging process and feel like your younger self.

HOW DOES RENEW WORK?

- A breakthrough botanical blend of the Tahitian superfruit noni, green tea and grape seed helps inhibit the effects of DPP4, the enzyme which disrupts the HGH releasing signal
- In vitro studies proved that this powerful blend helps decrease the effects of DPP4 by 99.91%
- A powerful combination of amino acids L-arginine, L-lysine and Beta-alanine helps suppress the production of the anti-HGH producing signal [somatostatin], again allowing for greater release of HGH into the body

WHAT IS THE DAILY RECOMMENDED USAGE?

Mix one packet into 4-8 fl. oz of water and shake vigorously. Enjoy once per day 30 minutes before going to sleep.

CAN I TAKE RENEW IF I AM ALLERGIC TO ONE OF THE INGREDIENTS OR AM TAKING MEDICATION?

Always consult a healthcare physician prior to beginning any new dietary supplement if you have allergies or are taking medication.

CAN I TAKE RENEW IF I AM PREGNANT OR BREASTFEEDING OR HAVE A MEDICAL CONDITION?

Always consult a healthcare physician before beginning any new dietary supplement while pregnant or breastfeeding, or if you have a medical condition.

WHEN WILL I START TO FEEL THE BENEFITS OF RENEW?

Everyone is different and will experience the benefits differently. It can be after one week or even after three months — it all depends on the individual and his or her level of HGH before taking Renew.

CAN I TAKE RENEW INDEFINITELY?

Yes. Renew is most effective when taken daily.

HOW SHOULD I STORE RENEW?

For best results, store Renew in a cool, dry place.

IS RENEW MADE FOR BOTH MEN AND WOMEN?

Yes, this product was scientifically designed for anyone looking to help increase their HGH levels.

CAN I TAKE MORE THAN 1 SERVING TO SPEED UP THE PROCESS?

No, the recommended serving is 1 packet per day for optimal results.

CAN I MIX RENEW WITH SOMETHING OTHER THAN WATER, SUCH AS ORANGE JUICE?

We recommend that Renew is mixed with 4-8 fl. oz of water, but if required you can squeeze some lemon juice or add a slice of lemon to the water.

ARE THERE ANY NEGATIVE SIDE EFFECTS?

As with any form of supplementation, if you experience any prolonged discomfort or side effects, discontinue use and consult your healthcare provider.

WHAT IF I MISSED A FEW SERVINGS?

Resume taking Renew on a daily basis.

CAN I TAKE THE PRODUCT IN THE MORNING INSTEAD OF THE EVENING?

We recommend taking it in the evening 30 minutes before bed, as HGH contains GABA, which can help support improved sleep.
